PRESS RELEASE

BASTIAN BREITENMOSER APPOINTED VP COMMERCIAL & STRATEGY AT AVIATIONSCOUTS

STRENGTHENING AEROTEC GROUP'S COMMERCIAL STRATEGY, DIGITAL MARKET ACCESS AND PLATFORM INTEGRATION

Lichtenfels, January 1, 2026 | aviationscouts, part of the Aerotec Group, announces the appointment of Bastian Breitenmoser as Vice President Commercial & Strategy, reinforcing the group's focus on integrated commercial strategy, digital platforms, and market expansion.

In his role, Breitenmoser will lead the development and alignment of commercial strategy across aviationscouts and the wider Aerotec Group. His responsibilities include strategic market development, digital business models, customer-facing platforms, and the integration of commercial and technological capabilities across the group.

With nearly 20 years of experience in aviation, transport, and mobility, Breitenmoser brings a career shaped by progressive responsibility across leading industry players. His professional background includes formative commercial and digital roles within the Lufthansa Group, followed by senior leadership positions at airberlin and Sixt Rent a Car, where he was responsible for driving commercial strategy, digital business models, and customer-facing platforms at scale.

Prior to joining aviationscouts, he co-founded and led Opremic, focusing on digital ecosystems for the aviation and MRO industry.

At group level, Breitenmoser will oversee the commercial direction of the Aerotec Group, supporting the development and market positioning of its comprehensive MRO portfolio. His mandate includes aligning commercial strategy across physical MRO services, parts and interiors solutions, and digital offerings, further strengthening the group's positioning as an integrated, digitally enabled MRO service provider.

"With the continued expansion of our MRO activities, it became essential to align our commercial strategy across the entire Aerotec Group," says Frank Kusserow, CEO of Aerotec Group. "Bastian brings the combination of aviation expertise, commercial leadership, and digital mindset we need to further develop and position our comprehensive MRO portfolio — from physical services and interiors to digital solutions — under a unified market approach."

Bastian Breitenmoser will be present at MRO Middle East & AIME 2026 in Dubai, supporting customer meetings and strategic discussions at the Aerotec Group / aviationscouts booth #2670.

About Aerotec Group

The Aerotec Group is an independent aviation services group providing integrated, end-to-end aircraft lifecycle solutions for the global aviation aftermarket.

The group combines physical MRO capabilities with parts, interiors, and digital services, supporting airlines, lessors, and MROs across all phases of the aircraft lifecycle — from maintenance, cabin and structural services, interiors and parts sales, to digital lifecycle management, dismantling and part-out, as well as upcycling, recycling, and remarketing.

Through its group structure, the Aerotec Group brings together specialized companies such as aviationscouts and AES (Airplane Equipment & Services), enabling close integration between operational MRO expertise, surplus inventory and interiors solutions, and digital lifecycle management. This integrated setup allows customers to reduce lead times, increase transparency, and optimize asset utilization in an increasingly complex market environment.

Headquartered in Europe and operating internationally, the Aerotec Group is committed to delivering future-ready, scalable solutions that connect operational excellence with digital innovation across the entire aircraft lifecycle.
